Portfolio attributes

Investment objectives

- A multi-asset fund with the main objective of achieving long term capital growth, while protecting against capital loss. Returns are expected to be delivered through capital growth and moderate levels of income distributions.

Investment policy

- Regulation 28 compliant multiple asset class portfolio.
- Primarily equities, bonds, cash and listed property, in South Africa and offshore.
- Maximum 75% equity exposure.
- Offshore exposure limited to 45%.
- Derivative financial instruments are permitted.
- Underlying collective investment schemes, both local and offshore, may be held.

Fund related risks

- Equity and listed property investments are volatile by nature and subject to potential capital loss.
- Fixed income instruments, including corporate and government bonds, may experience capital loss in the event an issuer defaults on their interest or principal payments.
- The portfolio may be subject to currency fluctuations due to its international exposure.

Minimum Disclosure Document

About the fund manager

Truffle Asset Management is an owner managed business established in 2008. Truffle has a stable and diverse team of investment professionals with a vast depth and breadth of experience across South African equity, fixed income, asset allocation and global markets. Truffle has built an exceptional reputation managing balanced funds for more than ten years, utilising a consistent investment process. The investment team at Truffle has run the Balanced Fund since inception in 2011.

Investment philosophy

Truffle seeks to take advantage of the opportunity posed by short term market inefficiencies.

They construct portfolios on the notion that market efficiency returns in the long run.

Experienced and skilled managers exploit such opportunities via a disciplined investment process.

They assess the relative attractiveness of investments and construct portfolios within their proprietary risk framework.

Truffle are measured in their approach, maximising independent positions without excessive exposure to any single position.

Definitions

- 1) The annualized total return is the average return earned by an investment each year over a given time period. Performance is calculated for the portfolio and individual investment performance may differ as a result of initial fees, the actual investment, the actual investment date, the date of reinvestment and dividend withholding tax. Due to the delayed release of inflation data, relevant benchmarks will lag by one month. Data source: © Morningstar Inc. All rights reserved.
- 2) Total Expense Ratio (TER), expressed as a percentage of the Fund class, relates to expenses incurred in the administration of the Fund class. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER may not necessarily be an accurate indication of future TERs. Transaction Costs (TC), expressed as a percentage of the Fund class, relate to the costs incurred in buying and selling the underlying assets of the Fund class. TC are a necessary cost in administering the Fund class and impact Fund class returns. It should not be considered in isolation as returns may be impacted by other factors over time including market returns, the type of Fund, the investment decisions of the investment manager and the TER. The Total Investment Charges expressed as a percentage of the Fund class, relates to all investment costs of the Fund class. Both the TER and TC of the Fund class are calculated on an annualised basis, beginning 2021-04-01 and ending 2024-03-31. Where the Fund class is less than 3 years old, the TER and Transaction Costs cannot be determined accurately because of the short life span of the Financial Product. Calculations are based on actual data where possible and best estimates where actual data is not available.
- 3) The Equity Index referred to under Risk measure is the FTSE/JSE All Share Index (ALSI).
- 4) Performance data for the period between Nov 2011 - February 2017 refers to the A class. All performance figures from March 2017 is in relation to the existing A2 class.

▶ Disclaimer

Nedgroup Collective Investments (RF) Proprietary Limited is an authorised Collective Investment Scheme Manger and the representative of Nedgroup Investments Funds PLC in terms of the Collective Investment Schemes Control Act 45 of 2002. It is also a member of the Association of Savings & Investment South Africa (ASISA).
